TOPAZ® Desktop Video Magnifier for your Students with Low Vision and with a 3 Year Warranty!

Special Promotion now through September 1, 2008! Take 15% off of retail price on any Topaz Low Vision Machine.

The **TOPAZ** with its bright, high-contrast image, large moveable reading table, and easy to reach and use buttons is a must for every home or school setting where people with macular degeneration, diabetic retinopathy, and other forms of low vision love to read books, do crossword puzzles, and see the details in text books or family pictures.

The TOPAZ is your personal vision center - powerful yet so easy to use!

1. **LCD monitor** – 17", 19" or 21" monitor sizes adjustable height and tilt for your viewing comfort
2. **Magnification dial** - adjust magnification from 3 times up to 78 times the actual size
3. **Color Panel** - Simple, accessible controls for color selection and brightness
4. **Position Locator Beam** - Easily guides you to exact document placement
5. **Reading Table** - generous size, with fingertip control and wide side-to-side motion

6.

- [TOPAZ Connectivity Pack](#) – Connect the Topaz to a PC for for split-screen views, guide lines, and masking. No need to buy a second machine to do this. The Topaz will perform this task by simply adding the Connectivity Pack even at a later date!
