

Read&Write GOLD from Texthelp – Special PATINS Pricing!

Texthelp Systems Inc. in cooperation with the PATINS project is pleased to offer our award-winning **Read&Write GOLD** literacy software solutions at exceptionally discounted prices up to **20% off of standard list prices**. Special **“Take Read&Write Home” \$295 single user pricing** is also available for students and schools with a site license. All schools, libraries, and students/parents in the state of Indiana can take advantage of these special prices through December 1, 2008.

Working in partnership with educators, Texthelp Systems developed **Read&Write GOLD** to provide comprehensive curriculum-independent support for students and to be a highly effective literacy tool for teachers. The software provides reading, writing, research, and test taking features that allow students to work independently alongside their peers in the classroom. The integrated Teacher's Toolkit allows teachers to monitor student progress and configure user settings to address specific learning needs.

Read&Write GOLD was designed specifically for students with:

- Reading and Writing Difficulties
- Learning Disabilities such as Dyslexia
- English as Second Language

Read&Write GOLD features including Read Aloud, Screenshot Reader, Talking Dictionary, Spelling/Homophone checkers, Word Prediction, Study Skills, Research Tools, MP3 Creation, and the English-to-Spanish Translator are accessed via a floating customizable toolbar that seamlessly integrates with widely available, familiar applications such as Microsoft® Word, Internet Explorer, and Adobe® Reader. This allows students to access the reading and writing support tools they need from within mainstream software applications rather than having to master specialized software environments.

Read&Write GOLD (for Windows or Macintosh), the premier product in the Read&Write family, is available with single user, starter packs, or unlimited site licenses. Other products in the Read&Write GOLD family include:

- **Read&Write GOLD MOBILE** (for Windows only) comes on a portable USB drive allowing students to use Read&Write GOLD on any computer running Windows Vista, 2000, or XP anywhere, anytime with no installation required.
- **Read&Write GOLD DELUXE** (for Windows only) which has all of the features of Read&Write GOLD plus two powerful resource tools, **Testmaker** and **PDF Accessibility Editor**.

Read&Write GOLD products are appropriate for use in elementary and secondary schools as well as colleges with individual students, classrooms, schools or entire school districts.

To **participate in this special offer**, to **request a FREE 30-Day trial CD**, or to **schedule a FREE product webinar**, call Texthelp at (888) 248-0652 or email u.s.info@texthelp.com and mention the PATINS special pricing offer.
